ALSAGER URBAN DISTRICT COUNCIL

REPORT

ON THE

Health and Sanitary Circumstances of the

District

FOR THE

YEAR ENDED 31st. DECEMBER 1970

Digitized by the Internet Archive in 2016 with funding from Wellcome Library

MEDICAL OFFICER OF HEALTH

L. RICH, M.B., ChB., M.R.C.O.G., D.P.H.

SURVEYOR AND PUBLIC HEALTH INSPECTOR

A. JAMIESON, M.R.S.H., M.A.P.H.I.,

DEPUTY SURVEYOR AND PUBLIC HEALTH INSPECTOR

- J.B. MELLOR, M.A.P.H.I.

To the Chairman and Members of the Alsager Urban District Council.
Mr. Chairman, Ladies and Gentlemen,

I have the honour to present to you the Annual Report on the Health and Sanitary Circumstances of the Urban District for the year 1970.

en "in j

The incidence of infectious diseases continues to remain low despite the fact that we have had over twenty cases of measles. The uptake of immunisation generally is very good in Alsager and we hope that most of the common infectious diseases will ultimately be eradicated.

As will be seen in the Report we have begun to protect schoolgirls against german measles and I am very satisfied with the response we have had from the parents. Although german measles itself is not a serious disease if it occurs during early pregnancy it is responsible for very serious mental defects and physical deformities in the new born child. It is to be hoped in the future that a big in-road will be made into this problem by the new policy we are adopting in the vaccination of schoolgirls between the ages of eleven and thirteen.

Although the number of births has dropped the population of Alsager continues to rise. I would like to draw the attention of the Council to the large number of births that now take place in hospital and the consequent diminution of home confinements. Whether this is a satisfactory state of affairs or not my own personal view is that many more home births could occur with advantage both to the hospital and to the persons concerned. However, national policy now is far as many confinements as possible to take place in hospital.

I am particularly satisfied with the new arrangements now taking place in connection with refuse collection and disposal. The new pulverisation plant is working satisfactorily and indeed we are shortly to be joined by two of our neighbouring Authoritities, namely Sandbach U.D.C. and Congleton R.D.C., in this modern scheme of refuse disposal.

There have been some unfortunate delays in the completion of the sewage works and whereas it was to be hoped that we would be in operation early in 1971 it looks now, due to factors beyond the Councils control, that there must be sometime yet before the two old sewage works can be give up.

It is very satisfactory to note that not only is progress taking place in the modernisation of the flats of the Council on the Longview Estate, but the Council are also embarking on the policy of modernisation of the houses. I consider that Alsager is to be congratulated on it's progressive attitude in this direction.

As the Council will know the Divisional Health Committee has now ceased to exist and consequently the extracts from their Report normally introduced into the Alsager Annual Report will no longer take the same form. However, I shall endeavour in future Annual Reports to insert information relevant to the situation in Alsager.

I am also pleased to report that in April 1971 we began a Family Planning Unit at the Clinic in Schabach Road South, held on the second and fourth Wednesday evenings of each month. We are grateful indeed to all the voluntary helpers responsible for this new venture and I can also report that the public have appreciated this very much indeed and are attending in considerable numbers.

I would like to take this opportunity of thanking Mr. R. Heap, our Clerk, who for many years has been such a faithfuly servant to the Council and of considerable help and guidance to me personally. I should also like to thank both Mr. Jamieson and Mr. Mollor once again for their assistance to me and for their help in the preparation of this Report.

I beg to remain,
Your obedient Servant,

L. RICH
Medical Officer of Health.

STATISTICS AND SOCIAL CONDITIONS

Extracts from Vital Statistics

Estimated Population . . . 10,490 (10,450)

Births		Tota		1	Male		nale
	Legitimate	135	(153)	70	(73)	65	(80)
Live Births	Illegitimate	6	(6)	1	(3)	5	(3)
	Legitimate	2	(-)	1	(-)	1	(-)

Meals on Wheels

This service enables the W.R.V.S. to heep a wonderful contact between themselves and the recipients.

The drivers and aides, who work to a rotam do many little kindnesses and give help when it is needed.

From January to the end of Docember 3,233 meals were delivered.

Midwifery

Midwife

Mms. E.L. Pedley, 6 Audley Road, Alsager.

Tel: Autoger 2583

Once again it is particularly satisfactory to report that a full years work has been achieved without any maternal death.

I would also draw attention to the continued popularity of the Proparation Classes.

Home Nursing

The District Nurses for Alsager are - Mrs. A.M. Skellam, 28 Birch Avenue, Alsager. Tel: Alsager 2582

> - Mrs. B.D. Mann (Relief) 43 Clowes Avenue, Alsager. Tel: Alsager 2089

The Home Nurses work under the direction of the family doctor and look after patients in their own homes. Because of this many cases who otherwise would have been admitted to hospital are dealt with at home. This work helps considerably in reducing the strain on the hospitals. Once again it is with pleasure that I have to report that no single complaint was received during the year.

Female Non-Pulmonary	-	-	_	-	1	-	1	2	-	4

Water Supply

Water is supplied by the Mid Cheshire Water Board. Both quantity and quality are good.

Sewerage and Sewage Disposal

Although continuous building is taking place and the two sewage works maintained by the Council situated at Day Green and Longview are seriously overloaded, progress is now being made on the new sewage works at Hassall Road, the estimated cost of which, together with new sewers is £442,000, and although we hoped that this would be in operation near the end of this year, unfortunately due to unforseen circumstances this was not so.

The latest information is that it is anticipated to become operative by June, 1971.

Refuse Disposal

Although a further 64 houses were erected during the year we are still maintaining a weekly collection. We have not as yet increased the number of properties operating plastic bin liners, due mainly to an anticipated investigation by "workstudy" when the whole question of collection will be dealt with.

In respect of disposal of refuse, in August 1970 the new Tollemache Pulverisation Hammer Mill came into operation, and after some teething troubles, is now operating very successfully.

We have been informed by two neighbouring authorities that during 1971 they will make use of this mill.

Food and Drugs

During this period 63 visits have been made to food premises and there appears to be a reasonable standard of food hygiene observed by the traders.

During this year 1321 lbs. of various foods have been condemned.

Offices, Shops and Railway Premises Act 1963

Complete inspections have been carried out of all premises to which the above Act requires, viz:

Class of Premises	Number of premises registered during the year	Number of regist- ered premises at end of year	Number of registered premises receiving a general inspection during the year.			
Offices	-	14	3			
Retail Shops	2	52	15			
Wholesale Shops Warehouses	-	_	-			
Catering Estab- lishments open to the public, canteens.	1	2	1			
Fuel Storage Depots	-	-	-			
TOTALS	2	68	19			

Total number of visits of all kinds by Inspector to Registered Premises under the Act - 89

Housing

By the 31st. December, 1970, we reached what might be termed the "Home Stretch" in that under 100 dwellings in Alsager did not possess the Standard Amenities, in fact only 88 such dwellings exist. Unfortunately, however, the mast majority of these are owner/occupied by retired persons on fixed incomes, who feel that they are not prepared nor do they have the financial backing to install these amenities.

As I mentioned in my last years' report, it is rather a pity that people who have strived to purchase their house for retirement should, because of financial restriction, be prevented from enjoying modern amenities in their twilight years.

It is appreciated that the latest legislation has greatly assisted, but it is regretted that in cases such as these the whole of the cost could not be borne by the local authority or Enchequer.

One application for Standard Grant and ten for Discretionary were received during this year, and the amount paid for completed improvements was £2745. These grants provided for the undermentioned amenities:

- a) fixed bath
 b) wash hand basin
 c) bot water supply and fittings
 d) water closet
 l
- e) sink l

Together with the above, this authority as Landlords of property have commenced an improvement scheme of 142 flats, and these are proceeding satisfactorily. To date 24 have been completed and another 24 are anticipated during 1971.

It is a pleasure to report such progress on matters vitally concerned with the well being of people and proves once again that a progressive authority, as in our case, cannot be judged solely on size.

Slaughterhouse Act

There is one private slaughterhouse in the district.

Carcases and offals inspected and condemned in whole or in part, are set out below:

1		Calves	Sheep	Pigs
